

Advert:

An exciting opportunity has arisen within Gynaecology to train to become a Nurse Hysteroscopist. We are looking for a motivated and enthusiastic nurse to join our team.

The successful candidate will undertake and complete the necessary training and competency to facilitate independent practice as a Nurse Hysteroscopist. They will be expected to participate in clinic sessions within the gynaecology outpatients department. Following training and accreditation, undertake Hysteroscopy clinics and be able to assess, plan, implement, evaluate and prioritize patient care without supervision.

Upon completion of accredited courses and competency sign off, the individual will become a band 7 Nurse Hysteroscopist.
