Role Summary

The Senior Sister/Charge Nurse/Ward/Unit Manager has overall responsibility for the provision of excellent care with compassion for the patients, relative and visitors who are cared for within their ward or department or by their team.

To ensure the provision of excellent care with compassion the Senior Sister/Charge Nurse/Ward Manager is responsible for:

- ensuring that the nursing team and care support team within their ward or department are adequately resourced and organised.
- ensuring the nursing team and care support team are adequately supported and developed to deliver excellent care with compassion in line with the Trust's Values & Nursing & Midwifery Professional Framework.
- leading and developing the ward nursing team and the ward administration and support teams by being a visible and strong role model providing leadership and direction to the team, capitalising on research and development opportunities, providing clinical supervision and advice for staff and students in order to support them in reaching their full potential
- ensuring the productive operation of the ward through the monitoring and maintenance of standards that create a safe, clean and organised environment and by using processes designed to increase the time nurses spend in therapeutic contact with patients

To act at all times in a manner that upholds the Trust's values and working as part of a team to ensure that patients and relatives receive excellent care with compassion.

In addition, this role will the potential to develop our infertility pathways, introducing a nurse role to the service and therefore the post holder needs to have some understanding and awareness of the infertility specialism.

Key Duties and Responsibilities:

The duties and responsibilities listed below should be undertaken in accordance with the levels of competence as defined in the KSF outline for this post. In addition all staff are expected to act in accordance with the values and behaviours of our organisation.

Nothing should be added here- the roles / duties should be reflected in the left hand column below and each role / duty should have a measurable outcome described in the measurable outcome column.

Leadership Framework Profile for Role

Inspiring Others	Responsibility for the Team	Leading from the Front	Conscious Leadership	Delivering the Service
4	4	3	3	4

(Level of capability required: 0 - Not Required, 1 - Developing, 2 - Capable, 3 - Strong, 4 - Outstanding)

Leadership Behaviour Clusters Overview

INSPIRING OTHERS - Motivates staff by involving them in the planning process, utilising their strengths, providing support and delegating appropriately. Provides appropriate support and coaches staff to develop confidence and competence. Role models desired behaviours by showing passion, communicating the Trust vision with pride and behaving consistently with the Trust Values.

RESPONSIBILITY FOR THE TEAM - Provides direction, feedback and understands the challenges faced by the team. Willing to pitch in and work as part of the team when necessary. Tackles conflict proactively and constructively. Demonstrates honesty and trust.

LEADING FROM THE FRONT - Able to take charge when necessary, overcoming challenges caused by conflicting priorities, lack of resources, difficult or demanding situations in the internal and external environment. Displays determination and resilience to raise performance levels. Learns from mistakes and develops creative and innovative solutions.

CONSCIOUS LEADERSHIP - Self-awareness of who they are, what they stand for, what others need from them and their impact on others. Considers different perspectives, follows up on promises and works in line with the Values. Reflects on performance using information to identify what needs to be done differently.

DELIVERING THE SERVICE - Focuses on quality and service provided. Continually tries to identify the most effective way of making the service responsive to meet changing demands. Articulates the vision with clarity, keeping focus on improving services and inspiring others to be positively involved. Manages short and long-term priorities, balancing the big picture with detail to ensure the highest standards are achieved.

Our Values

Being Caring and Compassionate

Being caring and compassionate is at the heart of everything we do, it is about understanding what each person needs and striving to make a positive difference in whatever way we can.

Recognising Individuality

Appreciating differences, making staff and patients feel respected and valued.

Seeking to Involve

Actively gets involved and encourages others to contribute and share their ideas, information, knowledge and skills in order to provide a joined up service.

Building Team Spirit

Working together as one team with shared goals doing what it takes to provide the best possible service.

Taking Personal Responsibility

Individuals are accountable for achieving improvements to obtain the highest standards of care in the most professional way, resulting in a service we can all be proud of.

ROLE DUTIES	MEASURABLE OUTCOMES		23	
Is responsible for the provision of excellent care with compassion (NB Where the phrase "all patients" or "patients" is mentioned: for patients who lack capacity please substitute next of kin or advocate)	In order to provide excellent care with compassion, the post holder will ensure that • all patients have their individual care needs assessed and met whilst within the outpatient department in accordance with standards of best nursing practice, best evidence, condition specific requirements and as identified in Trust policies, guidelines and protocols or in accordance with clinical judgement.			

 All patients are involved in decisions about their care and have agreed their plan of care All patient based risk assessments are carried out in line with Trust policy and are used to inform plans of care All patients are provided with information and opportunities to learn about their condition, care and treatment and general health promotion. all patients feel like they have been treated with dignity and respect appropriate members of the wider multi disciplinary team are engaged in the provision of care and treatment as required. Each patient and wider MDT involved in their care are aware of the criteria that need to be met and the timeframe for meeting it. All treatment decisions/required investigations for patients are proactively expedited so that there are no delays in provision of care All patients are happy with the care and compassion received and have had the opportunity to discuss their care or concerns with the senior sister/charge nurse or deputy and is evidenced through patient feedback such as friends and family surveys and STAR visit accreditation. All patients are asked for feedback on the care they have received All patients are asked for feedback on the care they have received All patients are solved in a manner which promotes a positive image of self, the ward and the whole team.

Evaculant care with compaction	<u> </u>	

	 With agreement from the patient, their family, carers, advocates are updated and included about the patient progress Bearing in mind confidentiality, relatives and family are regularly asked if they have any concerns about the care received and are given opportunity to raise concerns and provide feedback Each member of the department understands their responsibilities, with regard to the patient safety, health and wellbeing and feels able to and knows how to raise any concerns about a patient in a timely manner The documentation of patient care is contemporaneous, occurs timely and meets the professional and Trust standards and clearly indicates the care required and provided and the outcome of care. 			
Is responsible for ensuring that the nursing team and care support team are adequately resourced and organised in order to deliver excellent care with compassion	 In order to provide excellent care with compassion, the post holder will ensure that: Staff rosters are efficient and planned in advance using the e-rostering system, ensuring adequate staffing and skill mix to meet the needs of the patients and in accordance with the rostering and safe staffing policy The needs of the service including the numbers of staff who should be on duty each shift are recognised and understood by each member of the team The details of the staff on duty are visibly displayed on the department Nursing rosters are produced in line with the clinic schedules and updates from the rota coordinator 			

 The staff on duty understand how to prioritise and organise care across the team and department to meet the changing needs of patients. The staff on duty and whole team work flexibly and willingly not only in their own area but across the organisation as required to meet the needs of patients in accordance with the roster policy and chain of command protocols Procedure clinics are staff in accordance to the BSCCP and the Hysteroscopy Green Top guidance. There is always a designated nurse in 	
continuity at risk are identified, assessed and plans put in place to mitigate in accordance to the roster policy and chain of command protocols. • Any concerns in daily staffing are escalated to the matron / manager of the day as appropriate • Any changes to the service such as a new clinic are highlighted to the matron so that the proactive management of staffing and skill mix can occur • The recruitment process for any impending vacancies/secondments/maternity leave is commenced without delay. i.e. impending vacancy request is submitted within 48 hours of notice being received or within 8 weeks of maternity leave starting • The whole team is engaged in reducing sickness levels below 3%	

	 Staff sickness and absence is managed in accordance to the Trust policy Any predicted future shortfalls or other concerns about the number of staff available to work are raised to the matron or divisional nursing and midwifery director. The electronic e-rostering system analysis tools are using regularly to support monitoring of the delivery of efficient roster, such as annual leave percentage 			
Is responsible for ensuring the nursing team and care support team are adequately supported and developed to delivery excellence care with compassion	In order to provide excellent care with compassion, the post holder will ensure that: • All staff have current appraisals, agreed objectives and personal development plans in accordance with the Trust values and appraisal calendar • All staff have a timely and high quality induction to the department and team, including allocation of named preceptor/buddy • All staff complete mandatory training in line with Trust policy timelines and compliance is maintained above 95% for all metrics • They proactively supervise and support each member of the nursing and care team on a regular basis • They are a visible authoritative presence within the department and undertake 2 clinical shifts per week (60:40) • In liaison with the clinical educator, the department training needs analysis is created and adhered to in order to guide the education and development			

of the nursing and care support team in
accordance with the specific needs of
patients cared for within the
department.
All staff have access to and protected
time for learning and development as
part of the agreed training needs
analysis.
Any performance issues including
attitude, approach, attendance,
professional conduct, capability etc.
are effectively managed in a timely
fashion and in accordance with
relevant policies and procedures.
All member of the team have been
trained in the skills and feel confident to
support bereaved and distressed
patients / relative/s in a kind and
compassionate manner and to break
bad news in an appropriate and
empathetic manner particularly in
relation to the early pregnancy loss
patients attending for miscarriage
treatment in outpatients. In addition,
those having a diagnosis of cancer.
A climate exists where ideas for
improvement, research and innovation
in services, seeking others' views and
ideas and taking into account the wider
Trust programmes for improvement
and nursing development.
The whole team actively promotes the
department as a learning environment
encouraging each team member to
learn from each other and from
experience good practice and best
evidence.

	 The team works together to meet and exceeds requirement standards to provide student placements All eligible qualified staff achieve mentorship status and mentorship update standards and are then actively involved in mentorship of students and preceptorship of new and junior staff. All staff are supported to achieve revalidation and professional registration requirements.
